

# CAFÉ SCIENTIFIQUE

## IMMUNOLOGY: ARTHRITIS, TRANSPLANTS & VACCINES

Moderator, CBC Information Morning  
Radio Host

**Don Connolly**

Arthritis, Transplants and Vaccines. What do these have in common? All deal with your body's defence system as part of the science of immunity – Immunology.

Come participate in a panel-led discussion about:

Immunology: beating rheumatoid arthritis

New frontiers in organ transplantation

What do you “The Public” think about mandatory influenza vaccination of healthcare workers?
