

Vaccine Study

We are inviting you to have your child take part in a study of the regular 12 month Meningococcal C vaccine.

We will be looking at the protection levels comparing different dosing schedules of the vaccine in 3 Canadian provinces.

For more information, please contact:

Pam MacIntyre

470-8948

pamela.macintyre@iwk.nshealth.ca

We will also offer Twinrix (hepatitis A and B) vaccine to your child.

If you are eligible to take part in this study, you will be compensated for out-of-pocket expenses.
